and the Resolution of Prof. Lesley in relation to the U. S. Coast Survey, reported the following preamble and resolutions, which were unanimously adopted :

WHEREAS, The American Philosophical Society having a deep interest in scientific investigation, has heretofore taken occasion to express its opinion as to the propriety of the appointment of scientific men for high scientific positions ;

AND WHEREAS, The American Philosophical Society recognizes the advisability of appointing as Superintendent of the Coast and Geodetic Survey a man of the highest ability, experience and character, be it therefore,

*Resolved*, That this Society regards Richard Meade Bache as one fulfilling all these requirements ; that his training on the Survey for a period of nearly forty years, his familiarity with its methods and history, his general knowledge and scientific culture, would make the appointment an eminently fit one, and would assure to the work the maintenance of that high standard of usefulness to the people and to the Government which it reached under the distinguished administrations of Alexander Dallas Bache and Benjamin Peirce.

*Resolved*, That this Society recommend the said Richard Meade Bache as in every way qualified for the Superintendency of the Survey.

*Resolved*, That a Committee of three members of this Society be appointed to proceed to Washington and lay there these resolutions before the President.

The President of the Society and Messrs. Dudley and Haupt were appointed the Committee referred to in the resolution.

And the Society was adjourned by the President.
